Did you know that insurance companies pay more than twice (2X) the compensation when an attorney is involved in a claim?

Roy Macaluso has represented Major Insurance Companies and understands what Insurance Companies base their decisions upon for settlement of a claim.

How much will an attorney cost?

We strongly believe all cases may have merit and we will take a case without payment up front- based upon a contingency fee agreement.

A law firm usually receives compensation if and when YOU receive compensation.

The more money you receive, the more the law firm receives. Fusco & Macaluso pledges to do our best to maximize YOUR recovery.

How will my claim be processed?

It is often the case, that lawsuits become necessary when disagreements occur with the other party's insurance company over who caused an accident

or how serious the injuries are. It may become necessary to file a lawsuit to pursue litigation to get full value for your claim.

DO NOT sign any documents without prior review by the team of experts at Fusco & Macaluso.

How long before I must hire an attorney?

WITHIN 90 Days!

For these reasons, it is important to immediately consult with Roy Macaluso, a proven expert in this field...

Roy Macaluso has been on the "other- side- of the courtroom" in these cases and knows how the law works.

It is extremely important that you contact us as early as possible to be sure you do NOT miss a crucial deadline.

In New Jersey, an action for personal injury or wrongful death generally must be brought within **2 YEARS...** yes, within two years from the date when the cause of action occurred.

A wrongful death action accrues on the date of death. Immediate action in contacting an experienced attorney such as Roy Macaluso, Esq., must be taken immediately to see that our Laws DO Work for YOU!

What damages can I recover?

The Laws of Personal Injury include entitlements to recover for actual damages, wrongful conduct, losses such as costs of reasonable and necessary medical care, property damage, car rental expenses, costs of domestic services, and loss of earnings.

The law is able to give you compensation for future medical and care expenses. You may also be entitled to non-economic damages such as for physical pain and suffering, mental and emotional suffering, physical impairment, inconvenience, disfigurement, loss of enjoyment of life, loss of consortium (disruption of your personal relationship with your spouse), etc.

How can I determine how much my claim is worth?

Attorneys are prohibited from promising a client that they will obtain a certain amount of money. A claim is value based upon estimates of what a jury believes the case to be worth.

Sometimes there will be considerable compensation for injuries if they are found to be severe with extensive medical treatment, that includes absences from work or serious permanent injuries, especially if you were a healthy young worker, prior to the accident, then your compensation possibly increases.
