

What if I am accused of a sex crime?

1. Child Molestation

The crime of Child Molestations brings a Defendant the greatest risk for prison terms, even for first-time offenders. The registration as a sex offender is **For Life**. Child molestation also may include the greatest risk for false accusations that will result in strong criminal prosecutions.

A suspect or an abuser, when arrested faces a large bail, if any, when placed under arrest. Facing serious child sex- abuses can bring charges which usually result in prison for many, many years.

If you are charged with child abuse or child molestation, you must choose a highly experienced lawyer, such as Anthony J. Fusco, Jr., who will be deeply and comprehensively involved in each and all stages of the interrogation process. A child psychologist and other experts will be hired to review videotaped interrogations of both the child and the defendant during an interview to determine how or if a child has been brainwashed.

Also, a doctor or nurse trained in child abuse matters will consult with our experienced professionals who investigate for information about the abuse from siblings, former spouses or girlfriends, neighbors, friends, teachers, family doctors and nurses. We will be determined to seek strong knowledgeable witnesses who may testify on your behalf in an effort to find the truth.

2. Rape

Being charged with a rape crime requires the necessity for an expert defense team just as child molestation cases. Typical Rape convictions usually bring long prison sentences and life time registration as a sex offender.

In most or many cases of rape, a person is known to the accused. Subsequently, a person involved in the issue must prove whether or not the alleged rape victim consented to having sex with the accused.

IT IS ABSOLUTELY IMPERATIVE, if you are accused of rape or molestation, that you retain an experienced attorney such as Anthony J. Fusco, Jr. who can immediately hire a professional investigator to

interview potentially important defense witnesses. Most rape cases can be successfully defended, or many can be dismissed, but only if you take immediate steps to hire an expert legal team to defend and protect your rights according to the law. Mr. Fusco will direct his investigator to interview possible witnesses and will likely hire an expert in eyewitness identification. If your case is not defensible, Mr. Fusco may choose an alternative course of legal action. Mr. Fusco may be able to make arrangements for his client to be professionally evaluated by a psychologist who specializes in sex offenses.

Your freedom and record are at stake and they are both too important to entrust to an inexperienced attorney.
